SUMMARY

Software Engineer with 3+ years of experience specializing in web development, with expertise in React, Next.js, and backend solutions utilizing Firebase and Supabase. Experienced in delivering projects and tasks on time while thriving in collaborative team environments.

PROFESSIONAL EXPERIENCE

Software Engineer, Syrincal Trading OPC   **Nov 2024 - Present**
- Conceptualized, designed, and developed a customized B2B ordering platform for supply chain and inventory management, prioritizing a responsive interface and seamless multi-role functionality for admins, agents, and clients.
- Implemented dashboards and workflows for order tracking, deliveries, and client management, resulting in a 100% increase in operational efficiency.

Web Developer, D.R.A. Jewelry   **Sep 2024 - Dec 2024**
- Designed and developed the business' website with an emphasis on a fully responsive front-end, while also integrating a feature enabling clients to schedule private consultations with the owner.

Social Media Marketer, WeWhiten   **Jun 2023 - Jun 2024**
- Implemented focused outreach and engagement strategies across social media platforms, increasing customer attraction by 30%, enhancing retention by 15%, and more than doubling client bookings compared to previous levels, while contributing as a top performer to the team's consistent ranking as one of the best.
